Election/Restriction

1. This application contains claims directed to the following patentably distinct species of the claimed invention: the first species or the embodiment described on page 6, lines 20-28, and on page 7, lines 1-3; the second species or the embodiment described on page 7, lines 4-9; the third species or the embodiment described on page 7, lines 10-13; the fourth species or the embodiment described on page 7, lines 11-15; the fifth species or the embodiment described on page 7, lines 16-18; the sixth species or the embodiment described on page 7, lines 19-21; the seventh species or the embodiment described on page 7, lines 22-26; the eighth species or the embodiment described on page 7, lines 27-28; the ninth species or the embodiment described on page 8, lines 1-2; the tenth species or the embodiment described on page 8, lines 3-5; the eleventh species or the embodiment described on page 8, lines 6-9; the twelfth species or the embodiment described on page 8, lines 10-13; the thirteenth species or the embodiment described on page 8, lines 14-18; the fourteenth species or the embodiment described on page 8, lines 19-24; fifteenth species or the embodiment; the sixteenth species or the embodiment described on page 8, lines 25-28; the seventeenth species or the embodiment described on page 9, lines 1-3; the eighteenth species or the embodiment described on page 9, lines 4-5; the nineteenth species or the embodiment described on page 9, lines 6-8; and, the twentieth species or the embodiment described on page 9, lines 9-11.

Art Unit: 3743

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3743

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ljiljana (Lil) V. Ciric, whose telephone number is (703) 308-3925. While she works a flexible schedule that varies from day to day and from week to week, Examiner Ciric may generally be reached at the Office during the work week between the hours of 10 a.m. and 6 p.m. ET.
